

D.N.J. LBR 5007-1. Requesting a Recording

Prior to a hearing, a party may request that an audio file of a court proceeding be placed on the docket.

2025 Comment

This Rule is amended to emphasize that an audio request must be made prior to a court proceeding.

2015 Comment

This Rule is new. The request must be made to the judge's Electronic Court Recording Operator before the matter is heard. Due to current technical constraints, the court cannot provide an audio file when the request is made after the conclusion of the matter.
